The Music Memory Program and Finals experience was fantastic! When we were at the Finals I was so excited because it was my first time ever going to a big music event with my school. The orchestra was so beautiful especially the violins and french horns. I really enjoyed the singers, they were great. Doing the Music Memory Program was so much fun with Ms. Puglisi. My favorite part in the actual program was when Ms. Puglisi showed us the music video maps. They were so cool. My favorite classical song was, "It Don't Mean A Thing If It Ain't Got That Swing" by Ellington because I love Jazz. I will never forget this wonderful experience.

Music Memory

The Music Memory Program and finals experience were wonderful and exciting. The singers sounded so beautiful that my heart was about to explode with the joy of music.

My favorite selection was Romeo and Juliet: "Dance of the Knights" by Prokofiev. I was amazed how the orchestra played this selection as well as the other selections. They sounded terrific!

Even though I was an alternate at the finals, I'm glad I got to do the music memory program. I will never forget this experience.

Music Memory

My experience in the music memory program was astonishing. It was fun memorizing music I don't even know about. I loved everything about this program, it's not boring and it's really a nice experience.

When our 5th grade team got to its destination I was nervous because of all the racket. When I got inside the theater I thought the place was amazing, especially the orchestra. When we started the competition my nerves were shot but I felt confident.

Gold or Silver I'm happy I was part of the music memory finals. I give special thanks to my music teacher Ms. Puglisi, the judges, and the other people who helped us. This whole experience was a chance of a lifetime for me and I will never forget it!

Music Memory

The Music Memory Finals experience was amazing. I really liked the way the orchestra played the selections and how great the singers sounded!

I will never forget the whole music memory experience. It showed me how beautiful classical music sounds. Not only did I get to listen to this wonderful music, but I really got to know more about the life of the composers which was interesting.

Music Memory you rock!!!!!!!

Music Memory

The Finals experience was astonishing! It was fun competing with the other schools. I wish we could have received the gold and blue ribbons. However, the silver ribbon was nice too. All my hard work paid off because my team got most of the selections correct. Especially the one that we had to say on the microphone. I will never forget the music memory program or finals.

My Music Memory Finals was fantastic. I loved it so much because we got our own t-shirts. It was awesome because there was a real orchestra. It was the best day ever because we won a silver ribbon. My school was so lucky because we were chosen to participate.

Music Memory

The Music Memory Program and Finals experience was spectacular. I was so amazed that we were competing against twenty other NYC schools. There was a lot of competition which made it fun! Also, the orchestra sounded just like the actual CD. It was great to watch the musicians play their instruments and see the conductor direct them. I was so proud of our 4th grade team because we got 83 points and all received a silver ribbon. I hope I can do this next year.

Music Memory

The music memory program and finals experience was terrific because we all had fun! My favorite selection, Romeo and Juliet: "Dance of the Knights" by Prokofiev, was played first by the orchestra.

The music memory test was really hard for me even though I studied a lot. The music sounded very different to me when the orchestra played it. However, I did my best to help our team.

At the end of the test my team received silver ribbons. We were so proud of ourselves and I felt great being in the competition. I hope I can do this again next year!

Music Memory

The finals experience was very competitive. However, during the contest I was very confident that my team would get a high score because Ms. Puglisi prepared us well. It was fun memorizing classical music and the composers names. I will never forget this wonderful experience and hope I can do it next year in fifth grade.

Music Memory

The Music Memory Program and Finals experience were terrific! During the competition I thought that it was very interesting to listen to these selections while the orchestra played. My favorite selection on the CD was, "It Don't Mean a Thing If It Ain't Got that Swing" by Ellington. The program and finals were a great experience. I can't wait until next years finals!

MUSIC MEMORY

The finals were great because we really saw the orchestra playing the music. It was nice watching all the musicians play the instruments. They played such beautiful music, it was gorgeous. Even though we got silver ribbons we still won.

Music Memory

The music memory finals experience was very competitive. Even though I was an alternate I could see that the competition was also fun to do. I enjoyed seeing the live orchestra play the music and learning about these selections in the program.
