

Each Learning Module takes a complete approach to one important literature selection:

- Composer Information, Information About the Music, and Vocabulary Terms are provided.
- A Mighty Lesson and an Animated Listening Map – the VideoMap - are included to highlight key musical elements in the music. The mapping is created by music educators and the Animation is added by a professional video game animator. The mp4s are included that could be attached in any online Learning Platform.
- YouTube Links are provided to an outstanding live performance and interesting alternate version performances that could be embedded in any online Learning Platform.
- An Inside Scoop page includes information on the Recording Artists and a Notated Theme for the selection.
- A Checking for Understanding worksheet is included for formative assessment.
- An Extend Your Learning page includes higher level thinking questions especially for High School students.

While designed for online learning, these materials can also be used very effectively for in-class lessons.
